Phone Number	-

Q2: Country or Customs territory

- INTERNATIONAL ORGANIZATION

Q3: Organization

Public sector

PAGE 4: C. ABOUT YOUR CASE STORY

Q4: Title of case story

Where does the UN Broadband Commission for Sustainable Development believe broadband can drive significant progress in sustainable development?

Q5: Case story focus

E-commerce development and efforts to bridge the "digital divide".

Q6: Case story abstract

Where does the Commission believe Broadband can drive significant progress in sustainable development?

- The UN Broadband Commission for Sustainable Development believes that broadband can deliver real and meaningful progress in all of the 17 Sustainable Development Goals.

- Progress may be more immediate in some goals e.g. health and well-being, education, and e-government services.

- The use of broadband for energy efficiency and protecting the environment may take longer to become apparent.

Q7: Who provided funding?

Multilateral organization

Q8: Project/Programme type

Multi-country

Q9: Your text case story

The UN Broadband Commission for Sustainable Development is united in its belief that broadband can deliver real and meaningful progress in all 17 of the Sustainable Development Goals (SDGs). However, progress may be more immediate, or apparent, or dramatic in some goals before others. In this respect, the commission believes that broadband can have a real transformative impact in areas of health and well-being, education and e-government services, whereas the use of broadband for energy efficiency, protecting the environment, satellite imagery of oceans for example, this may take longer to become apparent.
