

ANNEX — YOUR CREDITOR REPORTING SYSTEM (CRS) PROFILE

The OECD Creditor Reporting System (CRS) can be used to track proxies of Aid-for-Trade volumes based on the WTO Task Force definition. These proxies are covered by the CRS under four headings: (1) trade policy and regulations; (2) economic infrastructure (energy, transport & telecoms); (3) building productive capacity; and (4) general budget support (which includes support for trade-related structural adjustment, as well as general programme assistance). Note that the CRS does not have a proxy for the WTO category “other trade-related needs”.

Aid-for-Trade Proxies

Source: Creditor Reporting System and the joint WTO/OECD Trade Capacity Building Database (TCBDB).

1. These data have been taken from the TCBDB, which will no longer be operational after completion of 2007 reporting on 2006 activities.

2. It is intended to introduce a marker within the CRS to separate out Trade Development funding from the broader Building Productive Capacity category.
