

### *Presentations at COP23*

This document provides a list of events or side events organised or co-organised by the OECD, or with the participation of OECD speakers.

EVENT	TIME	LOCATION
<b>Monday, 6 November 2017</b>		
Facilitative dialogue – options for outputs and outcomes and questions on modalities	15:45 – 16 :45	Fijian Pavilion, Bonn zone
The interaction of global climate change policies and air pollution	16:00 – 17:30	EU Pavilion
<b>Tuesday, 7 November 2017</b>		
Integrated air pollution and climate policies in Asia	10:30 – 12:00	Japan Pavillion, Bonn zone
<b>Wednesday, 8 November 2017</b>		
Aid for Adaptation: Assessing Effectiveness	13:00 – 14:30	Japan Pavillion, Bonn zone
Key results of the German G20 Presidency and the way forward to Argentina in 2018	17:30 – 18:30	German Pavillon, Bonn zone
Enhancing transparency of climate finance reporting under the Paris Agreement	17:30 – 19:00	EU Pavillion, Room Tallinn, Bonn zone
<b>Thursday, 9 November 2017</b>		
Co-ordinating Carbon Pricing Policies	10:00 – 11:30	German Pavilion, Bonn zone
Achieving the Paris Agreement through a Green Economy Transition: Fiscal risks and opportu	12:30 – 14:00	IETA Pavilion, Bonn zone
Carbon pricing and fiscal policy	14:30 – 16:00	German Pavilion, Bonn zone
<b>Friday, 10 November 2017</b>		
Shared Mobility for Climate Mitigation: Innovation and Big Data	11:30 – 13:00	Meeting Room 4, Bonn zone
Urban Water Resilience	15:00 – 16:30	Meeting Room 2
Achieving Paris Climate Commitments at the National Level 1 -- Developing Project Pipelines: Emerging Good Practice	16:00 – 17:30	IETA BusinessHub Pavillion, Bonn zone
Mainstreaming climate disclosure in OECD and emerging economies	17:00 – 18:30	Japan Pavilion, Bonn zone
Achieving Paris Climate Commitments at the National Level 2 -- Creating Dedicated Local Climate Investment Capacity through Green Banks	17:30 – 19:00	IETA BusinessHub Pavillion, Bonn zone
Clean Energy Investment	18:00 – 19:30	EU Pavillion, Bonn zone
<b>Saturday, 11 November 2017</b>		
IDFC Climate Finance Forum	Whole day	Hilton Hotel, Frankfurt, Germany
Marrakech Partnership for Global Climate Action (MPGCA), International Transport Day		
Opening Session: Setting the Scene and Achieving Future Goals	10:00 – 11:00	Meeting Room 8, Bonn zone
Policy Making and Target Setting for the Transport Sector	11:30 – 12:45	Meeting Room 8, Bonn zone
Shifting Personal Mobility through Innovations in Transport Technologies, Systems and Integrated Planning	13:45 – 15:00	Meeting Room 8, Bonn zone
Reducing Maritime Transport GHG Emissions: Decarbonising Supply Chains	15:00 – 16:15	Meeting Room 6, Bonn zone
Role and Experiences of Green Investment Banks in Combatting Climate Change	13:30 – 15:30	Turkey Pavilion
Enhanced Transparency Framework for Climate Actions	16:30 - 17:45	WWF Pavilion
COP 23 UN System	16:45 – 18:15	Bonn zone
OECD-IDFC Roundtable on development banks and DFIs	17:00 – 18:00	Hilton Hotel, Frankfurt, Germany
<b>Sunday, 12 November 2017</b>		
Climate Summit of Local and Regional Leaders		
<b>Monday, 13 November 2017</b>		
Scaling up finance for climate resilience in developing countries	11:15 – 12:45	EU Pavilion, Bonn zone
Climate Action and SDG 11 Roundtables (MP-GCA)	15:00 – 16:30	EU Pavilion, Bonn zone
Blended finance for climate action - mobilising private investment in developing countries	15:00 – 16:30	Nordic Pavilion, Bonn zone
High-level engagement on Finance Day; Finance for Climate - Monitoring financial markets on the Paris Agreement & addressing climate-related risks	16:45 – 18:15	Meeting Room 2, Bonn zone
Financing Paris and the SDGs through Fuel Subsidy Reform and Taxation: Country Best Practice	18:30 – 20:00	Bonn zone
From COP23 to the 11th Ministerial Conference of the WTO: what to do about fossil fuel subs	19:30 – 22:00	Bonn Marriott World Conference Hotel
<b>Tuesday, 14 November 2017</b>		
Task Force on the Access of African Cities and Territories to Climate Finance – Roadmap and Call for Action	11:00 – 12:30	Pavilion Energies 2050, CGLUA and DING TAI CO., LTD., Bonn zone
The Role of the Professional Network of African Cities and Territories in the Fight against Climate Change	15:00 – 16:30	Pavilion Energies 2050, CGLUA and DING TAI CO., LTD., Bonn zone
Initiating a just transition to a low-carbon climate resilient future: Implications for our	15:00 – 16:30	Meeting Room 7
Delivering SDGs and NDCs in Africa: Clean Energy Investments through Public-Private Blended Finance	15:00 – 16:00	Nordic Pavilion, Bonn zone
<b>Wednesday, 15 November 2017</b>		
Boosting co-operation between all actors to implement the Paris Agreement	9:30 – 11:00	EU Pavillon, Bonn Zone
Fossil Fuel Subsidy Reform – Facilitative Approaches and National Reform Efforts	10:00 – 11:30	German Pavillon, Bonn Zone
Carbon pricing for the low-carbon transition	11:00 – 12:30	Korea pavilion Bonn zone

## 6 November

### *Facilitative dialogue – options for outputs and outcomes and questions on modalities*

15:45 – 16 :45

2018 facilitative dialogue

📍 Fijian Pavilion, Bonn zone

The upcoming 2018 facilitative dialogue (FD2018) provides an opportunity to take stock of collective progress towards the long-term goal referred to in Article 4.1 of the Paris Agreement, and to inform nationally determined contributions. The FD2018 could also be useful in disseminating mitigation responses and inspiring policymakers to scale up climate action. The COP 22 and 23 Presidencies have been consulting with Parties and have recently reported on the preparations of the dialogue. The OECD/IEA Climate Change Expert Group (CCXG) has identified possible options for the organisation of this dialogue and their associated implications. This side event explores ideas for the inputs, outputs, outcomes and modalities of the FD2018 and their implications.

OECD/IEA event  
with Jane Ellis, Manasvini Vaidyula

---

### *The interaction of global climate change policies and air pollution*

16:00 – 17:30

Climate and air pollution

📍 EU Pavilion

This event explores how policies can tackle multiple sustainable development goals, in particular SDGs 'Climate Change' and 'Good Health and Well-being'. Global air quality co-benefits can fully and instantly compensate the possible economic costs associated with a shift towards a low-carbon economy.

organised by EC JRC  
with Elisa Lanzi

## 7 November

### *Integrated air pollution and climate policies in Asia*

10:30 – 12:00

Climate and air pollution

📍 Japan Pavilion, Bonn zone

Integrated solutions to air pollution and climate change have the potential to solve two of Asia's most intractable problems. There is considerable scope for policymakers to regularly bring together climate change and air pollution into a single set of decisions. This raises the question that will be discussed in this session: what will take to make integrated approaches to air pollution and climate change mainstream in Asia?

organised by IGES  
with Elisa Lanzi

## 8 November

### *Aid for Adaptation: Assessing Effectiveness*

13:00 – 14:30

Adaptation, Finance

📍 Japan Pavillion, Bonn zone

OECD event co-organised with JICA  
with Liwayway Adkins, Eric Williams, Özlem Taskin

*Key results of the German G20 Presidency and the way forward to Argentina in 2018*  
*17:30 – 18:30*

G20

☞ German Pavillon, Bonn zone  
with Gabriela Ramos, OECD Chief of Staff, G20 Sherpa and Special Counsellor to the Secretary-General

---

*Enhancing transparency of climate finance reporting under the Paris Agreement*  
*17:30 – 19:00*

Transparency of climate finance

☞ EU Pavillon, Bonn zone  
The enhanced transparency framework envisaged in the Paris Agreement will build on, enhance and eventually supersede the existing measurement, reporting and verification (MRV) system established under the Cancún Agreements. This side event will explore what “building on” and “enhancing” might mean for the reporting of information on climate finance. It will focus on both finance mobilised and received, highlighting challenges faced by Parties reporting information in these areas to date and implications for the Paris Agreement’s forthcoming modalities, procedures and guidelines (MPGs).

OECD/IEA event  
with Jane Ellis, Justine Garrett

**9 November**

*Co-ordinating Carbon Pricing Policies*  
*10:00 – 11:30*

☞ German Pavilion, Bonn zone  
with Simon Buckle

---

*Achieving the Paris Agreement through a Green Economy Transition: Fiscal risks and opportunities*  
*12:30 – 14:00*

Finance

☞ IETA Pavilion, World Conference Centre  
The aim of this side event is to set out the main fiscal risks and opportunities from a green economy transition to major fossil fuel exporters. The EBRD will share its emerging views with a distinguished set of speakers from both the public and private sectors, including Dr Simon Buckle, Head of Climate, Biodiversity and Water Division at the OECD, who will talk about the transition to a green economy and its implications for the role of gas.

organised by EBRD  
with Simon Buckle

---

*Carbon pricing and fiscal policy*  
*14:30 – 16:00*

Fossil-fuel subsidies

☞ German Pavilion, Bonn zone  
organised by Green Fiscal Policy Network  
with Ronald Steenblik

**10 November**

***Shared Mobility for Climate Mitigation: Innovation and Big Data***

***11:30 – 13:00***

Transport

☞ Meeting Room 4, Bonn zone

The digitalisation of urban transport has accelerated in recent years, just as when many new technologies have been introduced and users started adopting new behaviours. The arrival of shared mobility services, electrification and automation can achieve low carbon transport.

organised by ITF/ITDB  
with Wei-Shiuen Ng

---

***Urban Water Resilience***

***15:00 – 16:30***

Water Action Day

☞ Meeting Room 2

organised by SIWI and partners  
with Aziza Akhmouch

---

***Achieving Paris Climate Commitments at the National Level 1 -- Developing Project Pipelines: Emerging Good Practice***

***16:00 – 17:30***

Green finance and investment

☞ IETA BusinessHub Pavillion, Bonn zone

The significant investment volume required to meet NDCs and Paris Agreement objectives necessitates the accelerated development of the green infrastructure projects pipeline at national and sub-national level. There is capital looking for these types of assets so this is an opportunity as well as a challenge and this is the focus of a forthcoming OECD report.

This panel brings together practitioners and analysts to examine this topic from an investment perspective; the focus will be on emerging markets.

Organised by the OECD  
with Rodney Boyd

---

***Mainstreaming climate disclosure in OECD and emerging economies (title tbc)***

***17:00 – 18:30***

Climate disclosure

☞ Japan Pavilion, Bonn zone

This session will discuss increasing demand for disclosure of climate related risks and strategies by companies and investors. It will highlight innovative policies to promote disclosure as well as good practices and concrete actions from non-state actors such as corporations, pension funds and asset managers to mainstream climate disclosure and integrate other environmental, social and governance (ESG) factors in business strategies of corporations and institutional investors. It will discuss key challenges and opportunities for encouraging scenario analysis, and aligning business strategies or portfolios with a 2-degree scenario. It will also highlight good practices from Japan and other countries. It will build on relevant OECD work, as well as the recommendations of the FSB Task Force on Climate-Related Financial Disclosures and the EU High-Level Expert Group on Sustainable Finance.

OECD-IGES Joint side event  
with Cristina Tebar-Less

*Achieving Paris Climate Commitments at the National Level 2 -- Creating Dedicated Local Climate Investment Capacity through Green Banks*

17:30 – 19:00

Green finance and investment

👉 IETA BusinessHub Pavillion, Bonn zone

Implementing the goals defined in the Paris agreement will require dedicated local capacity and nation-specific implementation to drive investment and financial innovation. Existing climate investment pledges fall short of what is needed. This session explores how national Green Banks—structured as new purpose-built institutions or as adaptations of existing institutions—can be formed to address critical market gaps and drive public and private climate investment to bring these new markets to scale.

Building off the preceding discussion of building green infrastructure pipelines, speakers will address the role of Green Banks in creating climate-specific investment capacity, to be followed by discussion with session participants.

co-organised by the OECD, the Coalition for Green Capital, and the Rocky Mountain Institute with Rob Youngman

**11 November**

*IDFC Climate Finance Forum*

*Whole day*

Finance

👉 Hilton Hotel, Frankfurt, Germany

How to align today's decisions and actions with long term impacts from the perspective of both financial institutions and decision makers and planners in cities and communities? Today's decisions have impacts in the long run. While there is urgency to act by financing and implementing the NDCs, ensuring that the decisions we take today are compatible with and can lead to the longer term climate mitigation and adaptation objectives proves absolutely crucial.

organised by IDFC

with Anthony Cox, Nicolina Lamhauge, Naeeda Crishna Morgado, Haje Schutte

---

*Marrakech Partnership for Global Climate Action (MPGCA)*

*International Transport Day*

*Whole day*

Transport

👉 Meeting Room 8, Bonn zone

10:00 - 11:00 [Opening Session: Setting the Scene and Achieving Future Goals](#)

The Opening Session will set the context for Transport Thematic Day and will focus on the need to scale up action and ambition on transport and climate change. This session will highlight the critical roles both State and non-State actors play across regions.

11:30 - 12:45 [Policy Making and Target Setting for the Transport Sector](#)

With a projection of growing transport demand, the goals of the Paris Agreement cannot be reached without significant reductions in transport emissions. Setting emission reduction targets is the first step to a decarbonising transport development pathway.

13:45 - 15:00 Shifting Personal Mobility through Innovations in Transport Technologies, Systems and Integrated Planning

The reduction of carbon emissions in urban transport requires a mix of policies and measures that will target changes in both technologies and mobility patterns. Recent trends across the world have shown that travel behaviour could be shifted to depend less on personal mobility through innovations in technology, urban planning, public transport services, and sustainable transport systems.

☞ Meeting Room 6, Bonn zone

15:00 - 16:15 [Reducing Maritime Transport GHG Emissions: Decarbonising Supply Chains](#)

This event will provide an overview of efforts to reduce international and domestic maritime transport emissions. Industry experts will show how maritime transport can contribute to the overall GHG reduction effort and decarbonise supply chains.

organised by ITF/PPMC/UICP/UIC

with Mary Crass, Olaf Merk, Young Tae Kim, Wei-Shiuen Ng

---

***Role and Experiences of Green Investment Banks in Combatting Climate Change***  
**13:30-15:30**

☞ Turkey Pavilion, Bonn Zone

The problem of climate change is huge, the time and resources required to ensure a substantial change to limit the global temperature increase at 1.5-2 degrees are limited. Both the international community and national governments are striving to find and inject more resources to enable key actors towards undertaking the necessary actions. Green Investment Banks work to leverage these limited sources using innovative transaction structures, risk-reduction and transaction-enabling techniques, and local and market expertise to channel private investment, including from institutional investors, into domestic low-carbon, climate-resilient infrastructure (OECD, 2015). Green bonds also have gained remarkable attention globally to increase financial support for the clean energy investments.

The objective of the session is to shed light upon different models of Green Investment Banks and experience with the green bonds from different countries to inspire and inform the audience about leveraging climate finance for low carbon investments.

organised by Partnership for Market Readiness (PMR) Turkey Project which is executed by the Ministry of Environment and Urbanisation of Turkey and financed by the World Bank

with Robert Youngman

---

***Enhanced Transparency Framework for Climate Actions***  
**16:30 - 17:45**

Transparency

☞ WWF Pavilion

organised by CEEW-CIGI-Brown University  
with Jane Ellis

***COP 23 UN System***  
***16:45 - 18:15***

☞ Bonn zone

The event will use the newly-launched Global Mobility Report (GMR) as the backdrop for a high-level discussion on how we can achieve the four global goals that define sustainable mobility (universal access, efficiency, safety and green mobility). The outcome of this Panel discussion will feed into the global roadmap of actions to achieving sustainable mobility, currently under preparation by the Sustainable Mobility for All (SuM4All) initiative.

Joint Side Event on Transport  
organised by UNDESA – World Bank Group  
with Young Tae Kim

---

***OECD-IDFC Roundtable on development banks and DFIs***  
***17:00 – 18:00***

Finance

☞ Hilton Hotel, Frankfurt, Germany

The changing role of development banks and development finance institutions in scaling up green investment in developing countries

organised by OECD in the margins of IDFC Climate Finance Forum  
with Naeeda Crishna Morgado, Jens Sedemund

---

***Clean Energy Investment***  
***18:00 – 19:30***

Clean Energy Investment

☞ EU Pavilion, Bonn zone

organised jointly the OECD and the Danish Energy Agency

**12 November**

***Climate Summit of Local and Regional Leaders***  
***9:45 – 17:30***

Collaborative climate action

☞ Meeting Room 8, Bonn zone

Local and regional governments are strengthening their resolve to curb climate change and prepare for its effects. They will come together during COP23 to launch key initiatives and strategic coalitions that shape global climate action.

organised by ICLEI  
with Young Tae Kim

**13 November**

***Scaling up finance for climate resilience in developing countries***  
***11:15 – 12:45***

Adaptation finance

☞ EU Pavilion, Bonn zone

with Jorge Moreira da Silva, Liwayway Adkins, Eric Williams

***Climate Action and SDG 11 Roundtables (MP-GCA)***

**15:00 – 16:30**

Green and Inclusive Transport

☞ EU Pavilion, Bonn zone

Transport plays a significant role in shaping cities and as the urgency to develop liveable and resilient cities grows, it is increasingly important to implement green and inclusive transport measures. This event focuses on sustainable transport development opportunities as envisaged by SDG 11.

organised by ITF/PPMC/UITP/UIC  
with Young Tae Kim

---

***Blended finance for climate action - mobilising private investment in developing countries***

**15:00 – 16:30**

Finance

☞ Nordic Pavilion, OECD and Business Sustainable Development Commission

Bonn zone

with Naeeda Crishna Morgado, Berenice Lasfargues, Jens Sedemund

---

***High-level engagement on Finance Day; Finance for Climate, Monitoring financial markets on the Paris Agreement & addressing climate-related risks***

**16:45 – 18:15**

Finance

☞ Meeting Room 2, Bonn zone

The event will highlight how the risk assessment frameworks are evolving to take into account climate-related risks, and how financial policy makers and supervisors are broadening the interpretation of their mandate to cover more long-term risks. The keynote speakers and panellists will discuss how FSB TCFD recommendations can be implemented and what is the role of financial markets and their regulators in contributing to assess the consistency of financial flows with the longterm goal of the Paris Agreement.

With OECD Deputy Secretary General Masamichi Kono

---

***Financing Paris and the SDGs through Fuel Subsidy Reform and Taxation: Country Best Practice***

**18:30 – 20:00**

Fossil-fuel subsidies, and their reform

☞ Bonn zone

organised by the University of Eastern Finland (UEF) and  
the Denmark, Climate Parliament  
with Ronald Steenblik

---

***From COP23 to the 11th Ministerial Conference of the WTO: what to do about fossil fuel subsidies?***

**19:30 – 22:00**

Fossil-fuel subsidies and trade rules

☞ Bonn Marriott World Conference Hotel

organised ICTSD  
with Ronald Steenblik

**14 November**

***Task Force on the Access of African Cities and Territories to Climate Finance – Roadmap and Call for Action***

*11:00 – 12:30*

Finance

☞ Pavilion Energies 2050, CGLUA and DING TAI CO., LTD., Bonn zone  
Co-organised by Cités et Gouvernements Locaux Unis d’Afrique (CGLU Afrique) & ENERGIES 2050

***The Role of the Professional Network of African Cities and Territories in the Fight against Climate Change***

*15:00 – 16:30*

Adaptation, Finance

☞ Pavilion Energies 2050, CGLUA and DING TAI CO., LTD., Bonn zone  
Co-organised by Cités et Gouvernements Locaux Unis d’Afrique (CGLU Afrique) & ENERGIES 2050

***Initiating a just transition to a low-carbon climate resilient future: Implications for our societies, economies, infrastructure and policy choices***

*15:00 – 16:30*

Finance

☞ Meeting Room 7, Bonn zone  
Joint side event with Germany  
focussed on the "Investing in Climate, Investing in Growth" report  
with OECD Deputy Secretary General Masamichi Kono

***Delivering SDGs and NDCs in Africa: Clean Energy Investments through Public-Private Blended Finance***

*15:00 – 16:00 during Financing Day*

Finance

☞ Nordic Pavilion, Bonn zone  
with Naeeda Crishna Morgado

**15 November**

***Boosting co-operation between all actors to implement the Paris Agreement***

*9.30-11.00*

Governance

☞ Nordic Pavilion, Bonn zone

Promoting multi-level and multi-stakeholder governance on climate change – as part of OECD’s contribution to “Climate Chance” initiative

With Tadashi Matsumoto

*Fossil Fuel Subsidy Reform – Facilitative Approaches and National Reform Efforts”*  
*10:00 – 11:30*

Launch of the G20 peer reviews of Germany’s  
and Mexico’s peer reviews of fossil-fuel subsidies

☞ German Pavillon, Bonn Zone  
with Assia Elgouacem, Ronald Steenblik

---

*Carbon pricing for the low-carbon transition*  
*11:00 – 12:30*

Carbon pricing

☞ Korea pavilion, Bonn zone

Avoiding the potentially very high costs of climate change requires transitioning to a low carbon economy. Carbon pricing, in the form of emissions trading systems or taxes, helps to reduce emissions in a cost-effective way, but what is its role in driving the low carbon transition?

In presence of H.E. Eunkyung Kim, Minister of Environment, Korea  
with OECD Deputy Secretary General Masamichi Kono, Kurt Van Dender
