Collaboration between:

- **COST Action IS1103 ADAPT** (Adapting European Health Services to Diversity)
- International Organization for Migration, Brussels (**EQUI-HEALTH project**)
- Migration Policy Group (Brussels), developers of **MIPEX**, together with **CIDOB** (Barcelona)

Started in 2012 (IOM & ADAPT); MPG & CIDOB joined in 2013

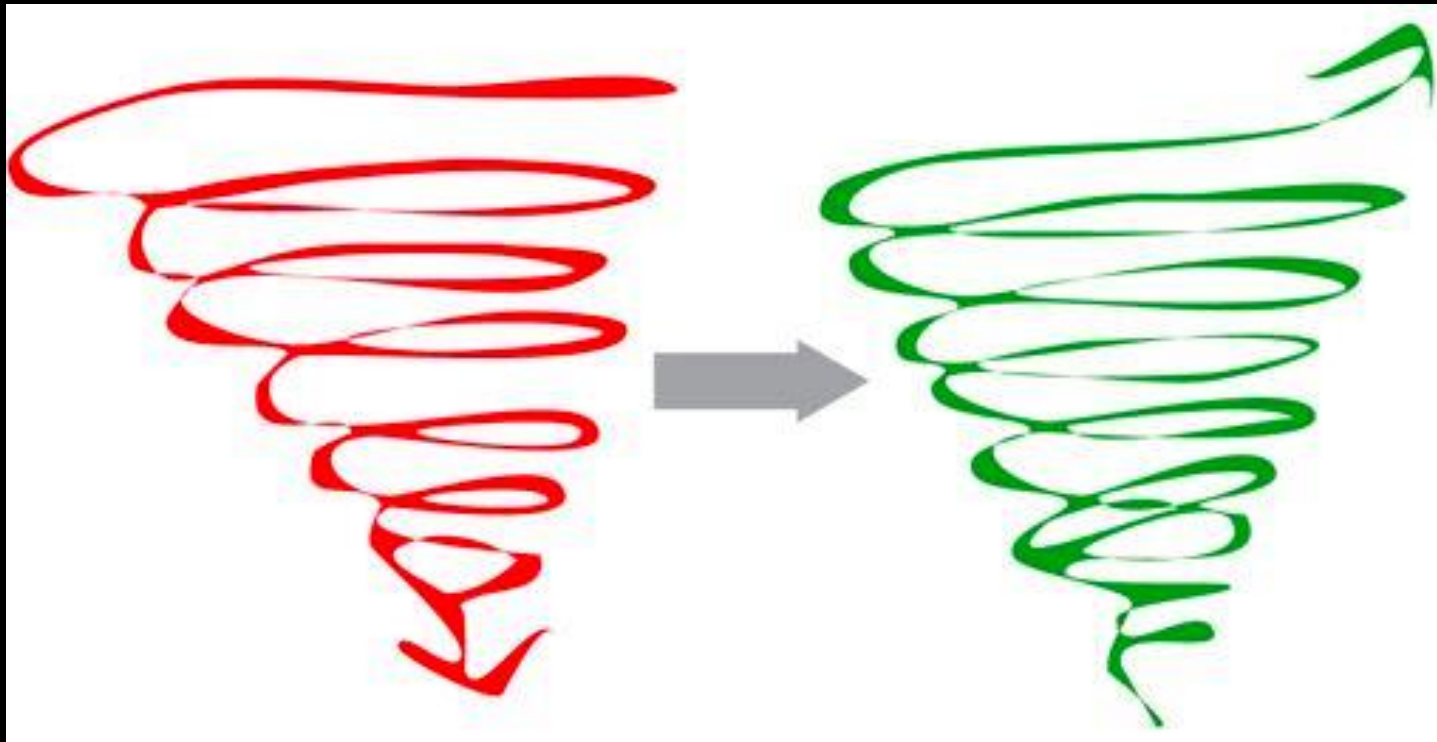

Over 160 experts in 42 countries worked on the Health strand

Main funding from European Commission and IOM

Why is health an important aspect of integration?

- Integration is harder if your health is not good
- If you are not well integrated, your health may suffer

**Can lead to a downward spiral, but
good policies can lead to an upward spiral**

Based on:

**Council of Europe Recommendations
on mobility, migration and access to
health care**

- Consultation period 2008 – 2010
- Published in 2011
