

The IDP sub-group of the Expert Group on Refugee and IDP Statistics (EGRIS)

Vibeke Oestreich Nielsen, Statistics Norway

Statistisk sentralbyrå
Statistics Norway

Expert group on Refugee and IDP statistics

Established by UN Statistical Commission (UNSC) in 2016

Acknowledgement that there is

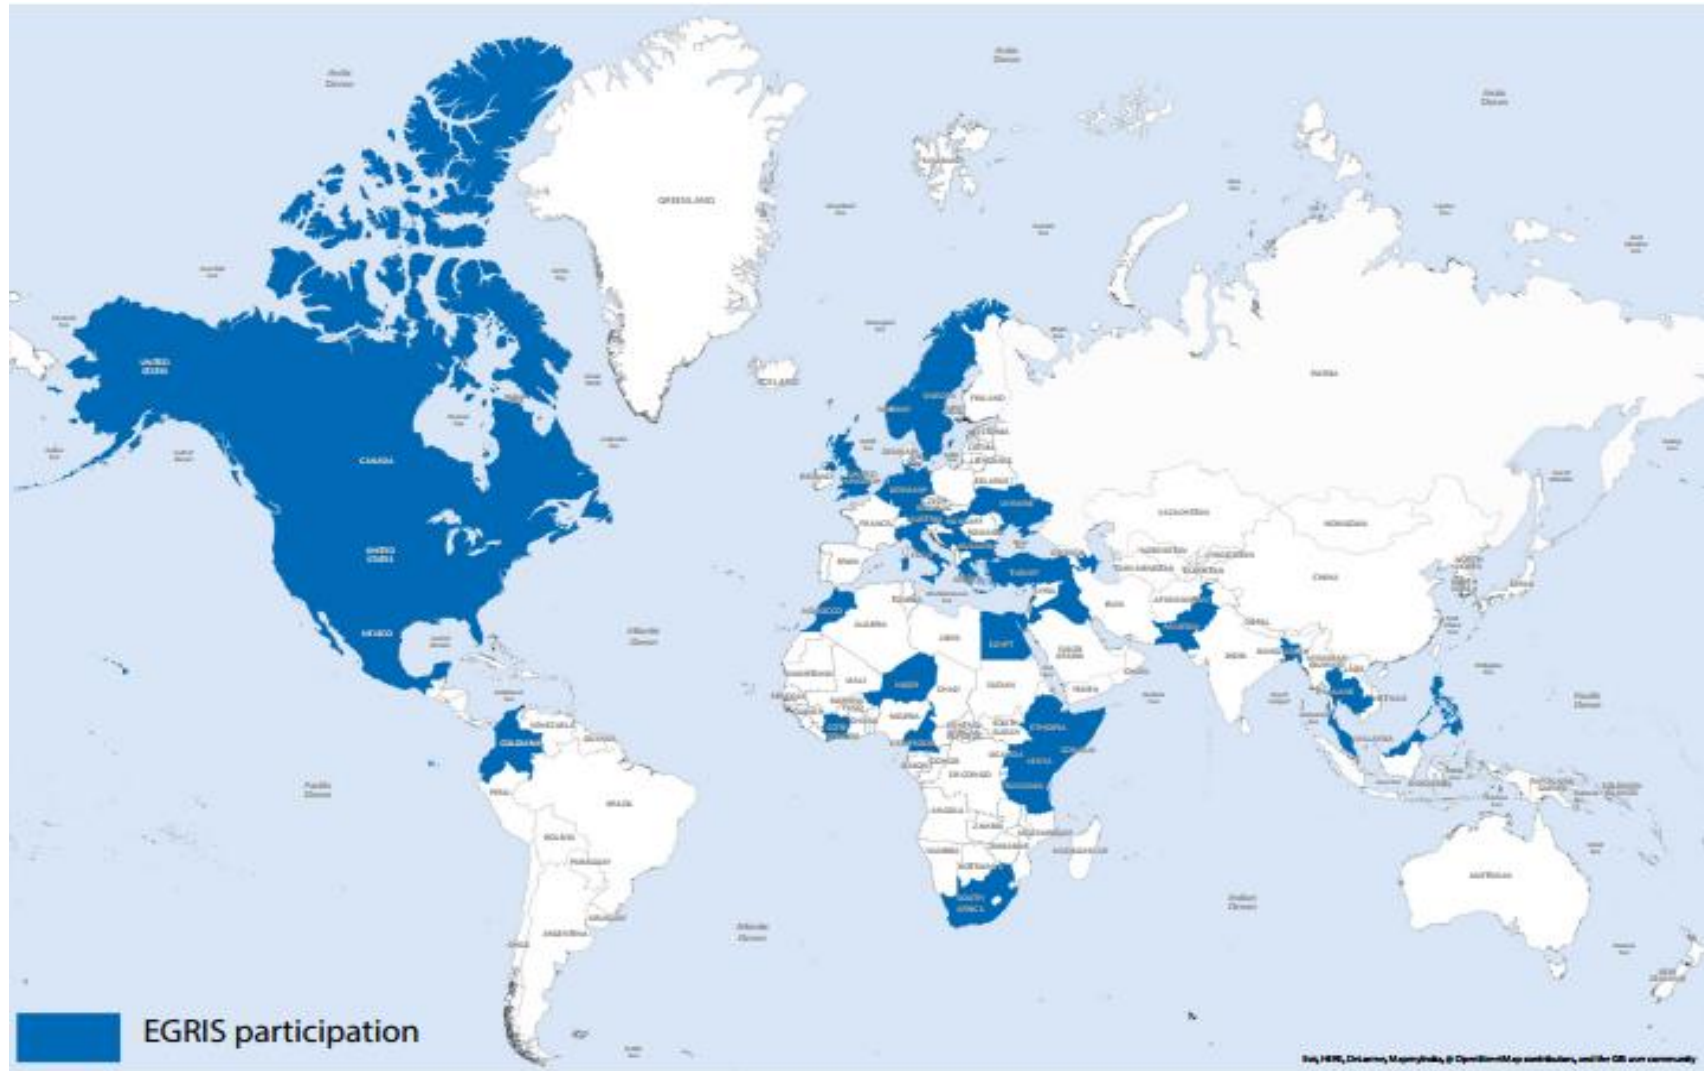

- Substantial lack of data
- Need for a common methodology
- Need to involve national statistics producers more

Mandated to develop:

- Recommendations on refugee statistics
- A Technical Report on IDP statistics

EGRIS member countries

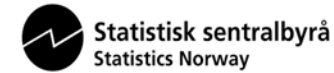

IDP group - a participatory process

Representatives from national/
regional statistics producers

Azerbaijan
Colombia
Kosovo
Philippines
Uganda

Bosnia and Herzegovina
Côte d'Ivoire
Kurdistan Region of Iraq
Somalia
Ukraine

Sub-group co-leads

With participation from

Towards a statistical framework on internal displacement

- Specifying **statistical categories**
- **Guidance** on use of different data sources (censuses, surveys, registers and civil registration as appropriate)
- Standards on **data protection** and data confidentiality
- **Aligning** IDP data with other official statistics (SDGs)
- Guidance on **coordination within NSS** and with other actors
- **Dissemination** of statistics

Defining IDP related populations

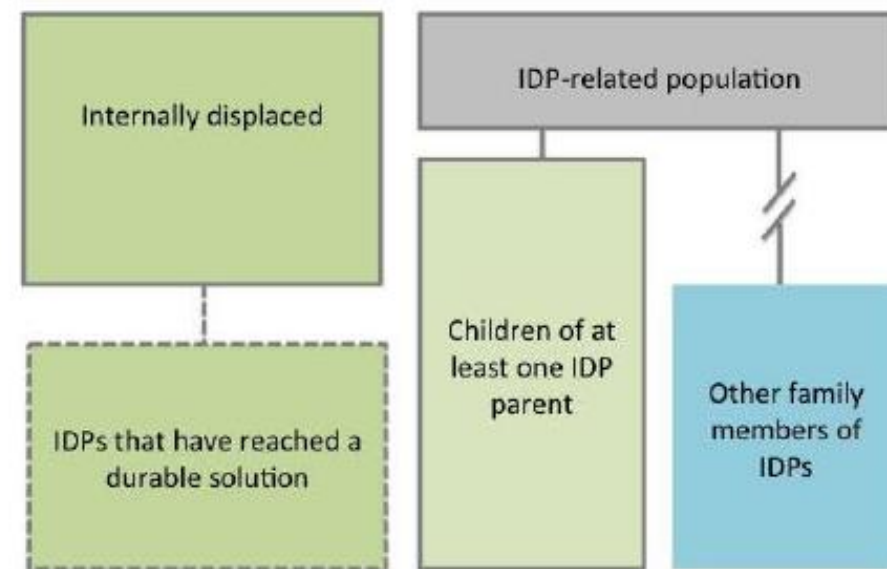

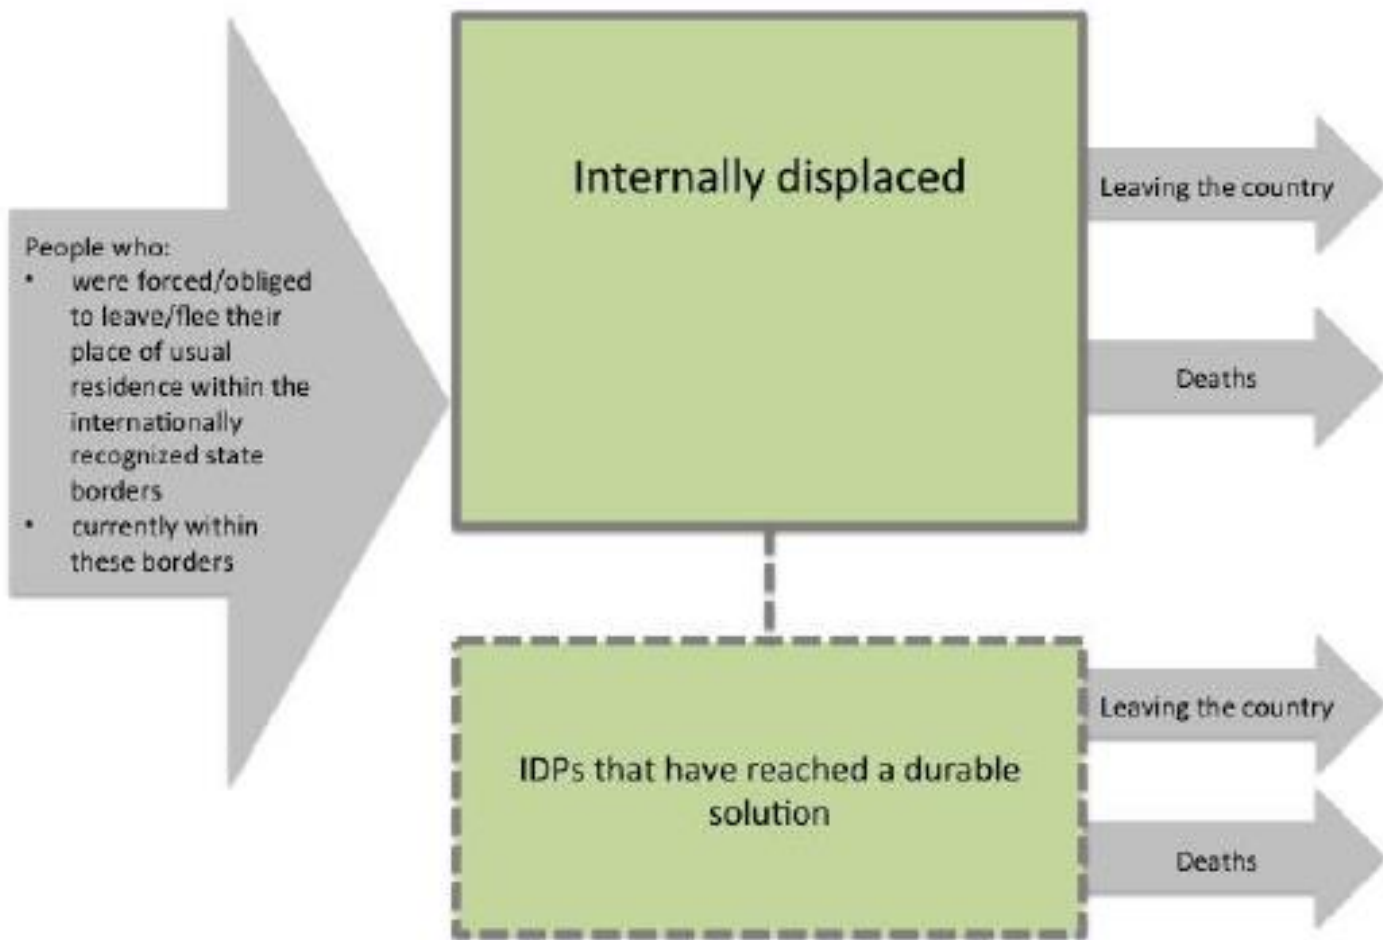

Figure 7.2 Statistical categories to be included in official IDP statistics

Next steps

- [Technical Report](#) up for discussion at 2018 UNSC
- Plan to develop **practically oriented manual**
 - Work closely with EGRIS member countries to make the manual relevant for countries with different data availability.
 - Conduct workshops and trainings.
