

Gerallt Llewelyn-Jones

Menter Mon LEADER group

Gerallt Llewelyn Jones is a native of Holyhead in Wales UK. Having graduated in Agricultural Botany in 1975 he completed a postgraduate Diploma in Education in 1976. Following a period working in education he worked for the Welsh Development Agency and then established Menter Mon as a LEADER II LAG in 1995. Since that time he has steered the LAGs development into a diverse delivery agency and social enterprise. His 20 years' experience of CLLD is extensive, both in grass roots innovation and in multi fund sequencing. In June 2014 the Menter Mon LAG was awarded a 45 year lease to develop tidal stream arrays in a 37km² sea bed zone in the Irish Sea called MORLAIS, which is a tangible example of CLLD in action.
