

Javier Gómez

Scientific Officer, Joint Research Centre

European Commission

Javier Gómez is Scientific Officer at the Joint Research Centre of the European Commission. His main activities are focused on providing support and policy advice to EU member states and regions in their way to implement their smart specialisation strategies, particularly in areas and priorities related to energy, interregional cooperation and blue growth. Javier also carries out activities related to the adaptation of the smart specialisation approach in non-EU countries. Prior to joining the European Commission, Javier Gómez worked as project evaluation and monitoring officer in the EU Cohesion policy instrument of European Territorial Cooperation.
