ABOUT

I am currently based in Paris, France and work in the development sector on projects responding to sustainable development challenges in the Global South. I hold a Masters in international cooperation and project management and am interested in education, food security, environmental protection and female entrepreneurship as a tool of empowerment and response to gender inequalities. Outside of the office, you can find me binge watching documentaries or working on my vocals at a basketball court.

“We need to build inclusive and safe environments so that all people can realise their potential.”
