Corrigendum

Page 4, last paragraph:

“Financial contributions from the UK Department for International Development and the Swiss Development Co-operation Agency are gratefully acknowledged.”

Should instead read:

This report has been produced by OECD with the financial assistance of the Swiss Development Co-operation Agency and the UK Department for International Development (DFID) Adaptation Knowledge and Tools programme. The opinions expressed and arguments employed herein do not necessarily reflect the official views of OECD member countries, DFID’s own views or policies, or those of Evidence on Demand.

The Adaptation Knowledge and Tools programme is a DFID-funded programme intended to maximise the effectiveness of UK and international investment in climate change adaptation and resilience. The knowledge and tools generated through this programme are expected to promote greater understanding of what constitutes best practice in adaptation, as well as better international cohesion and coordination around adaptation. Through these entry points the programme expects to increase the quality of international and UK adaptation programming and reduce its risk.

DFID welcome comments and suggestions, and any feedback on these documents should be sent to the ICF Secretariat (ICFSecretariat@DFID.gov.uk).
