Figure 1.11

Description of correction in the language of the book, in roman.

Please replace the existing figure by the following one (only the axis title has to be changed):

Please replace the existing text by the following (only the percentages have to be changed):

The HMR ranks only 10th out of 11 when it comes to the share of research and development personnel as a percentage of overall employees (about 0.46%) (Figure 1.11). More than 4 times as many employees work in research and development in MR Stuttgart (the frontrunner, about 1.97%) and slightly fewer in MR Munich (in second place with about 1.62%) and MR Rhein-Neckar (third place, about 1.52%). Northwest ranks last, with only about 0.27%.
