## Corrigendum

### Page 4:

One name in the acknowledgements is spelled incorrectly. Currently reads “Mark Fuster” and should be spelled “Marc Fuster”

NOTE: This correction is non-essential. If making this correction increases the total cost of the corrigendum, it is not to be made. The Word file for this chapter has been sent to PAC as an attachment (00-frontmatter), with the change made in Track Changes.

### Page 112:

The graph (Figure 5.4 Presence and relevance of barriers to the use of research, 2021) on this page needs correcting, as the current axis and legend is unclear for readers.

The updated excel file for the statlink and was attached to the email sent to PAC, along with the EMF. The EMF has also been changed in the Word file for the chapter (chapter5 - final), which was sent to PAC as an attachment.

### Page 245 and page 248:

The list of contributors at the end of the book is incomplete. Two contributors (David Gough and Jonathan Sharples) do not currently feature and their names and bios need to be inserted as additional content.

Respecting alphabetical order of family names:

David Gough's name and bio should be inserted in between the names and bios of Joanne Gleeson and Gábor Halász (page 245).

Jonathan Sharples' name and bio should be inserted in between the names and bios of Tom Schuller and José Manuel Torres (page 248).

A Word file of the chapter containing the additional bios and location in list of contributors in track changes was sent in attachment to PAC (99-backmatter).
