PROJECT CATEGORY

- Development of an AOP - applicable to a chemical category
- Development of an AOP Case Study - applicable to a single chemical or a very limited number of chemicals
- Guidance document related to AOP development including its evaluation
- Knowledge management tool for supporting AOP development including its evaluation
- Other, please specify below

<i>If other category, please specify:</i>

PROJECT DESCRIPTION

Please provide sufficient information to facilitate the review of the project submission by the OECD secretariat and the Extended Advisory Group with respect to its suitability to be included in the workplan of the AOP programme.

Note: For AOP Development and AOP Case Study projects please indicate the extent of the pathway to be described (i.e. the anchor points), the intermediate events that are likely to be addressed, the state of current development, the degree to which this pathway is already understood and described in the literature, and the expectation on the availability of evidence to support the AOP. **Proposers should also indicate if and how the AOP is associated to any regulatory toxicological endpoints (e.g. acute or chronic toxicity, toxicity to reproduction etc.)** Please provide references, links or attachments for supplementary information.

PROJECT PLANNING

In this section, please provide an indication of when the project is likely to commence and the expected duration. Please also make reference to any particular milestones or external factors that will influence project planning, and if the project is linked to programmes of particular organisations or consortia.
