#### Notes:

1. An APA is an "arrangement that determines, in advance of controlled transactions, an appropriate set of criteria (e.g. method, comparables and appropriate adjustments thereto, critical assumptions as to future events) for the determination of the transfer pricing for those transactions over a fixed period of time". (see definition of APA in the **OECD Transfer Pricing Guidelines for Multinational Enterprises and Tax Administrations** ("Transfer Pricing Guidelines")).

2. Situations may arise in which the issues resolved through an APA are relevant with respect to previous filed tax years not included within the original scope of the APA. The concept of "roll-back" is further elaborated in paragraph 4.136 of Section F (Advance pricing arrangement) of Chapter IV of the Transfer Pricing Guidelines and in paragraph 69 of Section D.4.2 (Possible retrospective application ("Roll back")) of the Annex to Chapter IV (Guidelines for Conducting Advance Pricing Arrangements under the Mutual Agreement Procedure ("MAP APAs")) of the Transfer Pricing Guidelines. Simply put, the "roll-back" of the APA is understood to mean that the outcome of the APA is applied to previous filed tax years not included within the original scope of the APA.
