OECD COMPETITION ASSESSMENT CHECKLIST

This checklist is part of the OECD Competition Assessment Toolkit, developed to help governments eliminate barriers to competition based on the recommendation.

It notes that competition assessment should be conducted if a legal provision has any of the following effects:

A

Limits the number or range of suppliers

This is likely to be the case if the provision:

- ☐ **A1** Grants exclusive rights for a supplier to provide goods or services
- □ A2 Establishes a license, permit or authorisation process as a requirement of operation
- □ **A3** Limits the ability of some suppliers to provide a good or service
- □ **A4** Significantly raises cost of entry or exit by a supplier
- □ A5 Creates a geographical barrier for companies to supply goods, services or labour, or invest capital

В

Limits the ability of suppliers to compete

This is likely to be the case if the provision:

- ☐ **B1** Limits sellers' ability to set prices for goods or services
- □ B2 Limits freedom of suppliers to advertise or market their goods or services
- □ **B3** Sets standards for product quality that provide an advantage to some suppliers over others, or are above the level that some well-informed customers would choose
- □ B4 Significantly raises costs of production for some suppliers relative to others (especially by treating incumbents differently from new entrants)

Reduces the incentive of suppliers to compete

This may be the case if the provision:

- ☐ C1 Creates a self-regulatory or coregulatory regime
- □ C2 Requires or encourages information on supplier outputs, prices, sales or costs to be published
- C3 Exempts the activity of a particular industry, or group of suppliers, from the operation of general competition law

D

Limits the choices and information available to customers

This may be the case if the provision:

- □ **D1** Limits the ability of consumers to decide from whom they purchase
- □ D2 Reduces mobility of customers between suppliers of goods or services by increasing the explicit or implicit costs of changing suppliers
- □ **D3** Fundamentally changes information required by buyers to shop effectively
