

Capacity-building activities on online tools to access legislation

Agenda

The project

In coordination with the PMO and its counterparts, the OECD is implementing the EU-funded project “Support the Palestinian Authority to enhance Governance and the Rule of Law” (2020-2024). The overall objective of the project is to support the Palestinian Authority and contribute to achieving a more effective, transparent and participatory policy- and law-making process set in a clear normative framework, and thus enhance citizens and businesses trust in their government’s action. More specifically, the project will aim at enhancing the capacity of law and policy-makers to:

- Produce clear, effective and transparent primary and secondary legislation,
- Use efficient public consultation mechanisms as part of the policy development process, and
- Develop (and improve) online tools providing access to adopted and draft legislation.

The activities

In this framework a training will be organized on 22 and 23 June 2021 in order to enhance and strengthen the content of the Diwan’s online platform on adopted legislation by developing a work methodology aimed at dealing with existing content through the use of new means and enhance consultation process.

The activities will be delivered by two local experts (on-site). Two peers from OECD member countries will intervene remotely to share best practices from OECD countries in terms of online tools and platforms for enacted legislation.

**Funded by
the European Union**

Days 1 & 2 – Training with the Diwan, the General Secretariat, line ministries and PA institutions

Content Day 1	Time
Opening Remarks <ul style="list-style-type: none"> • PMO • EUD • Diwan • OECD 	09:00 – 09:30
