

## Capacity-building activities on online tools to access legislation

### Agenda

#### The project

In coordination with the PMO and its counterparts, the OECD is implementing the EU-funded project “Support the Palestinian Authority to enhance Governance and the Rule of Law” (2020-2024). The overall objective of the project is to support the Palestinian Authority and contribute to achieving a more effective, transparent and participatory policy- and law-making process set in a clear normative framework, and thus enhance citizens and businesses trust in their government’s action. More specifically, the project will aim at enhancing the capacity of law and policy-makers to:

- Produce clear, effective and transparent primary and secondary legislation,
- Use efficient public consultation mechanisms as part of the policy development process, and
- Develop (and improve) online tools providing access to adopted and draft legislation.

#### The activities

In this framework, a workshop on 21 June 2021 will be organized in order to identify the existing online tools of adopted legislations and thus reinforcing the capacities of public officials in charge of these instruments (Diwan).

The activity will be delivered by two local experts (on-site).

### 1st set of activities on assessing and strengthening existing online tools

#### Day 1 – Workshop with the Diwan to identify the existing tools and mechanisms

Content	Time
Session 1 - Learn about websites and new media tools used by the Diwan	09:30– 11:00
