SEMINAR

Supporting Decentralisation in Ukraine: Strengthening the subnational partnership

Wednesday, 15 March, 2017

Hotel Reikartz River Mykolaiv 9 Sportyvna Street Mykolaiv, 54015 Ukraine

ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

The OECD is a unique forum where governments work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experience, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies. The OECD member countries are: Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Latvia, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The European Union takes part in the work of the OECD.

OECD EURASIA COMPETITIVENESS PROGRAMME

The OECD Eurasia Competitiveness Programme, launched in 2008, helps accelerate economic reforms and improve the business climate to achieve sustainable economic growth and employment in two regions: Central Asia (Afghanistan, Kazakhstan, Kyrgyzstan, Mongolia, Tajikistan, Turkmenistan and Uzbekistan), and Eastern Europe and South Caucasus (Armenia, Azerbaijan, Belarus, Georgia, the Republic of Moldova and Ukraine). The Programme contributes to the OECD outreach strategy implemented by the Global Relations Secretariat, and works in close collaboration with specialised expert divisions across the OECD.

OECD REGIONAL DEVELOPMENT POLICY COMMITTEE

The Regional Development Policy Committee (RDPC) was created in 1999 with the goal of identifying the nature of territorial challenges and assisting governments in the assessment and improvement of their territorial policies. Through its mandate today, the Committee aims to serve as the premier international forum for senior-level policy makers to identify, discuss, develop, and disseminate a vision of regional development policy that is place-based, multi-level, multi-sector, evidence-based and innovative. The Committee also seeks to enhance well-being and living standards in all region types, from cities to rural areas, and improve their contribution to national performance and more inclusive and resilient societies. www.oecd.org/regional

THE PROJECT: SUPPORTING DECENTRALISATION REFORM IN UKRAINE

The OECD project will run until 2018 with the aim of helping the Ukrainian authorities implement their decentralisation reforms and strengthen the institutions of public governance at national and sub-national levels across the country. It is jointly implemented by the OECD Regional Development Policy Committee and the Eurasia Competitiveness Programme, in close collaboration with the Government of Ukraine. The project is **co-financed by the European Union**, and the governments of the Czech Republic, Flanders (Belgium), and Poland.

■ ABOUT THE EVENT

This capacity-building seminar begins to explore the impact and implementation of Ukraine's decentralisation process at the subnational, and specifically municipal level. It invites Ukrainian subnational officials and policy makers to share their experience in decentralisation reform and impact with respect to administrative capacity, investment capacity and service delivery capacity. In addition, participants have the opportunity to discuss the "pros and cons" of amalgamation, and their objectives for sector decentralisation. Each session combines the Ukrainian experience with practical input highlighting OECD experience, as well as question and answer/breakout sessions. It offers participants a chance to hear how other municipal officials are meeting the challenges and seizing the opportunities associated with decentralisation.

This seminar is the second in a series, held in Kyiv and in regions, over the course of this project.

Simultaneous interpretation in **English and Ukrainian** will be provided during the event.

PARTICIPANTS

The target audience are municipal level policy makers and practitioners, and representatives from regional level organisations involved in Ukraine's decentralisation reform process. We are expecting approximately 30-40 participants, a relatively small number that should allow for fluid exchanges of ideas and experiences between Ukrainian stakeholders and OECD experts.

REGISTRATION

Participation is free of charge, but **registration** is mandatory. If you wish to participate, please send an email to the OECD's local consultant in Kyiv, Mr. Mykhailo Semchuk at mykhailo.semchuk78@gmail.com, **by Friday, 10 March, 2017.**
