

## Consumption Tax Trends\* - Latvia

### VAT rate 2020

The Latvian standard VAT rate is 21.0%, which is above the OECD average. The average VAT/GST<sup>1</sup> standard rate in the OECD was 19.2% as of 31 December 2020. The previous standard VAT rate in Latvia was 22% in 2011. It changed to the current level in July 2012. Latvia applies reduced VAT rates of 5% and 12% to a number of goods and services. Specific reduced VAT rates apply in the context of the Covid-19 pandemic. VAT was introduced in Latvia in 1995 at a standard rate of 18.0%. Since then the minimum and maximum standard rates have been at 18.0% and 22.0% respectively.

1. VAT/GST refers to value added tax/goods and services tax

### VAT Revenue Ratio

The VAT Revenue Ratio (VRR) for Latvia was 0.58 in 2018, above the OECD average of 0.56. The VRR is a measure of the revenue raising performance of a VAT system. A ratio of 1 would reflect a VAT system that applies a single VAT rate to a comprehensive base of all expenditure on goods and services consumed in an economy - with perfect enforcement of the tax. The Latvian VRR increased from 0.54 in 2016 to 0.58 in 2018. The lowest VRR was recorded in the year 2009 at 0.38 and the highest level in 2006 and 2007 at 0.61.

The figures may not present the difference to the second decimal point accurately due to rounding

## Consumption Tax Trends 2020

*VAT/GST and Excise Rates, Trends and Policy Issues*

[oe.cd/vatgst-trends](http://oe.cd/vatgst-trends)

Consumption Tax Trends provides information on Value Added Tax/Goods and Services Tax (VAT/GST) and excise duty rates in OECD member countries.

It also contains information about international aspects of VAT/GST developments and the efficiency of this tax. It describes a range of other consumption taxation provisions on tobacco, alcoholic beverages and motor vehicles.

## International VAT/GST Guidelines

[oe.cd/international-vat-gst-guidelines](http://oe.cd/international-vat-gst-guidelines)

The International VAT/GST Guidelines present a set of internationally agreed standards and recommended approaches to address the issues that arise from the uncoordinated application of national VAT systems in the context of international trade.

They focus in particular on trade in services and intangibles, which poses increasingly important challenges for the design and operation of VAT systems worldwide.

They notably include the recommended principles and mechanisms to address the challenges for the collection of VAT on cross-border sales of digital products that had been identified in the context of the OECD/G20 Project on Base and Erosion and Profit Shifting (the BEPS Project).
