

# How's Life in Argentina?

## Argentina's current well-being, 2020 or latest available year

Note: This chart shows Argentina's relative strengths and weaknesses in well-being compared to other Latin American countries and OECD countries. Longer bars always indicate better outcomes (i.e. higher well-being), whereas shorter bars always indicate worse outcomes (lower well-being) – including for negative indicators, marked with an \*, which have been reverse-scored. Missing data are shaded in white.

## Argentina's resources for future well-being, 2020 or latest available year

Natural Capital		Economic Capital		Human Capital		Social Capital	
Red List Index of threatened species	1 ↔	Gross fixed capital formation	3 ↘	Youth not in employment nor education nor training (NEET)	3 ↔	Trust in others	1 ↗
Greenhouse gas emissions per capita	3 ↗	Tax revenues	1 ↗	Overweight	2 ↘	Trust in government	1 ↗

Note: 1=top-performing LAC 11 tier, 2=middle-performing LAC 11 tier, 3=bottom-performing LAC 11 tier. ↗ indicates improvement compared to 2000 or earliest available year; ↔ indicates no significant difference compared to 2000 or earliest available year; ↘ indicates deterioration compared to 2000 or earliest available year, and "..." indicates missing data. For methodological details, please contact [wellbeing@oecd.org](mailto:wellbeing@oecd.org).

## Inequalities in Argentina

Inequality ratios (distance from parity) for selected indicators of current well-being, 2019 or latest available year

Note: A result closer to the parity line indicates greater equality, a result further from the parity line indicates greater inequality, between the groups being compared. Inequality ratios below 1 indicate worse outcomes (i.e. lower well-being) for the most vulnerable group (i.e. women (gender), elderly (age), primary educated people (education)). Inequality ratios above 1 indicate better outcomes for the most vulnerable group.
